

# Remon® RV - Remote Monitoring

**Remon® RV provides affordable remote security and monitoring for your caravan or motorhome – now with levelling technology!**

## REMON®

A brand registered to develop REremote MONitoring solutions, using best-fit technologies from the Internet of Things.

## CELLULAR CONNECTION

2G, 3G, NB-IoT, LTE-M over any available provider, so your caravan or motorhome is always connected to internet. Alert for movement, track between mobile cells.

## LOW-POWER RADIO

Bluetooth low Energy (BLE) for local connection to your smartphone.

## BATTERY MONITOR

Monitor current battery voltage and historical values to indicate trends.

## ACCELEROMETER

Continuously check for intrusion and collision. Use with your smartphone as a spirit level.

## WEB CONSOLE

Cloud-based secure platform provides access via web-browser.

## DATABASE & DASHBOARD

Secure database stores every sensor reading to enable assessment of trending data, such as failing battery

**If you own a caravan or motorhome that is in storage for part of the year**, you will naturally have concerns about security and damage. REMON® will constantly monitor the status, notify issues by SMS text straight to your smartphone and maintain a detailed log accessed securely via a web browser. REMON® provides a comprehensive and secure solution to provide peace-of-mind.

- A cloud-based secure remote view of the status of caravan or motorhome.
- View immediate and trending data – check what happened over 24 hours, 1 week, 28 days, etc.
- Accessible from anywhere in world via a web browser
- Secure access via username and password.
- Detect intruder, collision, or slow discharge of battery.
- Use location monitoring based on mobile phone cell coverage to detect movement and location.
- Instant notification of alerts by SMS, Twitter, Facebook Messenger - even automated voice messages direct to your phone.
- Access to information that is important from anywhere via a web-browser
- Continuous monitoring with extremely low power consumption – will not drain your battery, even over 6 months in storage.
- Simply connect your smartphone via Bluetooth to the REMON® device to use it as a smart spirit level with remote display to make levelling your caravan simple.
